GROUND BAR CHAIR BSOG

INNOVATIVE CONCRETE ACCESSORIES

***“The Castle BSOG is incredibly strong,
perfect for our commercial applications”***
– Auckland Installer

The design specifics of our **BSOG Big Slab on Ground Chair**.

Castle NZ Big Slab on Ground (BSOG) chairs manufactured in NZ. These are suitable for deep ground slabs in roads, civil and commercial projects. They can be a suitable substitute for metal chairs as they are very strong but lightweight and rust free. Featuring a wide base which provides strength and stability to the product, at the same time it helps when placing separate bases.

The chairs have been designed to support layered mesh or bar up to 25mm diameter and are load tested to exceed 300kg, available in 100 and 120mm heights.

These chairs are batch tested and meet the AS/NZS 2425:2015 Standards for bar chairs in reinforced concrete.

Perfect For:

Slab on ground applications, Commercial floors,
Double layer mesh floors, Civil precast construction.
